

ALX 3-Day Meal Plan

INSTRUCTIONS FOR THIS MEAL PLAN:

This activity is designed to guide you in creating a personalized healthy meal plan. It focuses on incorporating a variety of nutritious foods that cater to your dietary needs and preferences, aiming to enhance your overall health and well-being.

Step 1: Meal Plan

Day 1:

Breakfast	Breakfast: Greek yogurt with mixed berries (strawberries, blueberries) and a sprinkle of chia seeds.
Lunch	Salad with chickpeas, spinach, cherry tomatoes, cucumber and lemon juice.
Dinner	Grilled chicken with a side of roasted sweet potatoes and steamed broccoli.

Day 2:

Breakfast	Pancakes topped with sliced banana, walnuts, and honey
Lunch	Beef and avocado wrap with whole wheat tortillas, mixed greens, and bell peppers. Side of carrot sticks.
Dinner	Pilau.

Day 3:

Breakfast	Mango Smoothie with pineapple, passion blended with yoghurt.
Lunch	Lentil soup with carrots, tomatoes, onions, and kale. Served with a side of Ugali
Dinner	chicken breast with a side salad (mixed greens, cucumber, avocado)

Step 2: Shopping list

- Pineapple
- Brown Rice
- _Mango

- _Avocado
- _Chicken
- _Beef
- _Sweet Potatoes

Step 3: Reflection

After completing your 3-day meal plan, take a moment to reflect on your choices and consider potential improvements. Write a short paragraph based on the reflection questions below:

1. *Can any ingredients in your meal plan be substituted for healthier options? (e.g., whole wheat or brown rice pasta instead of regular pasta)*
2. *Does your meal plan include a balanced proportion of proteins, fats, and carbohydrates?*
3. *Have you included a diverse range of fruits and vegetables?*
4. *Are there meals that could be prepared in a more health-conscious way? (e.g., baking instead of frying)*

Upon reviewing this meal plan, one could consider substituting some ingredients for even healthier options or to suit personal dietary restrictions. For instance, for those avoiding dairy, Greek yogurt and feta cheese can be replaced with plant-based alternatives. The meal plan aims to balance proteins, fats, and carbohydrates, incorporating a diverse range of fruits and vegetables across the meals. Most dishes are prepared in health-conscious ways, such as grilling, baking, and stir-frying, rather than frying. This approach minimizes added fats and preserves the nutritional content of ingredients. However, there's always room to experiment with different cooking methods or seasoning options to enhance flavors without compromising nutritional value.
