

FiS Milestone #6 Worksheet

Step 1: Activity: Commit to Move for Mental Well-being

Please copy and paste your response from the [Movement activity](#) into the box below.

Step 1: Activity: Commit to Move for Mental Well-being

What movement activity are you committing to?

Nature walks and physical exercises.

How did you feel mentally and emotionally before and after engaging in the activity?

I usually feel motivated to proceed with my daily activities and studies .

I also do feel more focused and motivated and overall less stressed

What challenges, if any, did you face at the start or during the activity? How did you overcome them?

One of my biggest challenges is being active due to days where I lack motivation and consistency. To proactively approach and overcome this personal challenge, I focused on starting my day off with exercises to try and build a habit.

Did you notice any changes in your sleep, energy levels, or ability to concentrate after starting the activity?

Better Sleep routine.

Improved focus.

Higher levels of energy.

Proactive approach to problems.

How can you integrate this activity more regularly into your lifestyle to benefit your

mental health?

Starting off my day by exercising, This approach will ensure that I build long term physical and mental health benefits.

Step 2: Activity: Personalised Self Care Plan

Locate your [completed self-care worksheet](#) from [this activity](#) and paste the link below. Make sure the document is viewable by anyone with the link.

Step 2: Activity: Personalised Self Care Plan

 ALX Sleep Hygiene Checklist.docx

Step 3: Thriving Under Pressure – Peer Activity: Reflection

Next, copy and paste your reflection from the [peer activity on Thriving Under Pressure](#). Make sure your response addresses all the questions in the prompt.

Step 3: Thriving Under Pressure – Peer Activity: Reflection

What did you learn from this activity?

I learned the importance of reflection in my learning process through this peer-sharing activity. Sharing my experiences offered new insights and helped me understand my journey better. The activity emphasized community and feedback's value in growth, showing that challenges are common and surmountable with collective wisdom.

In what ways did this activity help you to better understand your own challenges in your tech track?

Discussing my experiences helped me articulate my successes and difficulties more

clearly, providing a structured way to analyze my progress. I identified patterns in my achievements and persistent challenges, like specific technical skills or time management, helping me focus my efforts on overcoming these obstacles.

What steps are you going to take to address the challenges you identified?

Continuous Learning: I'll commit to continuous learning to refine and expand my skills, especially in challenging areas.

Seek Feedback and Collaborate: I plan to engage more with peers or mentors for feedback, which could offer new insights and improvement suggestions.

Set Specific Goals: I will identify specific areas for improvement in my tech track, setting SMART goals for progress tracking.

Practice Regularly: Regular practice will be crucial to reinforce learning and enhance problem-solving skills, particularly in SQL, Python, and data visualization.

Prioritize and Balance: I will identify priority areas and allocate my time wisely, balancing skill enhancement and new learning.

Decision for Improvement: I will dedicate more weekly hours to study advanced data analysis techniques or undertake challenging projects, boosting my skills and ALX experience.

Step 4: Fail Forward Challenge

Write your bucket list from [this activity](#) and the progress you have made so far for at least one thing on your bucket list.

Step 4: Meeting Date, Time, & Location	
<i>Bucket List (You must have at least 4 things on your list)</i>	<i>Progress so far (You must write the progress on at least one activity/item on your list)</i>
Freelancing as a Data EDA Expert/Data Scientist/Machine Learning Engineer/AI Engineer	Daily Goal: Spend an hour daily improving my portfolio, showcasing my expertise through projects or case studies. Weekly Goal: Reach out to potential clients or apply to freelance opportunities, aiming for at least five proposals per week.
Applying for 10 Jobs Daily	Daily Goal: Set aside 2 hours daily, 1 hour each in the morning and evening, to research and apply for jobs, aiming for 10 applications.
Exercising	Daily Goal: Schedule a 30-minute workout session each day, preferably in the morning to energize for the day ahead.
Reading and Meditating	Daily Goal: Dedicate 50 minutes to reading each night before bed. Allocate 20 minutes for meditation each morning to set a positive tone for the day.
Detoxing from Social Media	Daily Goal: Set strict usage limits (e.g., 30 minutes/day) and use the time purposefully to engage with content that enhances my professional brand.
Writing and Contributing on	Weekly Goal: Block out 2 hours every Saturday for

LinkedIn/Blogs	writing blog posts or articles, ensuring consistent weekly contributions
Technical Skills Development	Monday: Spend 2 hours on Transformer architecture. Wednesday: Allocate 2 hours for BytePair Encoder Tokenizations learning. Friday: Dedicate 2 hours to Computer Vision project practice. Sunday: Spend 2 hours on model deployment techniques.
